MODERN, SUSTAINABLE AND AVANT-GARDE: THE FIRST-EVER DIESEL-BRANDED LUXURY CONDOMINIUM TOUCHES DOWN IN MIAMI.

BY MIA ELORTEGUI

Miami is known to always take things up a notch, and its luxury-branded residences are no exception. Merging real estate, design and fashion, Diesel's first-ever luxury residential development touches down in one of Miami's most sought-out neighborhoods. Wynwood, home to alluring art galleries, nightlife, dining, a melting pot of culture and a recent thriving tech scene, will now be home to Diesel Wynwood condominium.

Absorbing Wynwood's dynamism and eclectic style, the boutique building will have bold spaces in its cutting-edge design. Developed by Bel Invest and designed by Zyscovich Architects, the building's facade will include a brightly colored sculptural edifice to mirror its surroundings and

celebrate living boldly.

"This unconventional building in the heart of one of Miami's most vibrant neighborhoods provides buyers with a rare opportunity to own and live in a unique art piece," says the building's sales manager, ONE Sotheby's International's John "Jake" Lecce.

While sticking to a modern aesthetic, the building also prioritizes urban sustainability and eco-consciousness, seeking LEED and WELL certifications to provide a framework of environmentally friendly and cost-efficient green buildings.

While each unit features up to 11-foot-high ceilings, Diesel Living is offering end-to-end design options for a turnkey experience with a long list of exclusive collections, including Moroso

furniture, IRIS tiles, Lodes lighting, Seletti home accessories and Scavolini kitchens and bathrooms.

In true Miami fashion, residents will have access to a rooftop pool deck and lounge overlooking the vibrant neighborhood of Wynwood. The building will feature an advanced fitness center, a wine cellar including an event space and a European-inspired spa where residents can utilize the sensory room, aromatherapy stations and more, granting residents every wish they so desire. 148 NW 28th St., Miami, @dieselwynwood
